GRANT. The boom is still booming.

It's all explained now! GARCELON once lived in Ohio, and studied medicine and surgery and other things in that Great State. Of course he imagines he was bern to hold office; the idea is inbred.

BEHIND Mr. Woop's three and a-half per cent, funding bill lurks his tariff bill, and behind that stalks M. LEON CHOT-TEAU, the French free-trader. Mr. Wood is a statesman-that's what he is-if he is

THOSE Republicans in Ohio, Pennsylvania and New York who are applying themselves with much vigor to the erection of "third-term" scarecrows in the Republican cornfield, will find, when the wind of popular sentiment strikes them, of how little importance they are in frightening the true and faithful Republicans of the country. Four years'experiences have taught the Republicans that those who got up scarecrows in the Republican party have wrought no good to themselves or to the country.

THE New York World, on more hearsny, assumes that the Secretary of the Treasury the party is but a rope of sand. It has lost has not issued silver certificates in accord- its principles. This places him in a clear sea, without pledges, combinations or bargains to embarrass and handicap him when he shall come to the formation of his committees. This will add much to his comfort and more to his success. He has no enemies to punish-no friends to reward-no debts to pay: hence he can proceed to put the legislative machinery together with the very best material in the House. Few Speakers enter upon their duties under such happy anspices as attend the promotion of General SHARPE, and we feel confident that he will not disappoint the most sanguine expectations of his friends.

for spoils, which has already drenched the country with the blood of hundreds and thousands of patriots, which has in these post-bellum days nullified the Constitution and the laws in all of the Southern States, and which is now as eager as ever, appears as the only threat against the existence of our republican form of government in this, the second century of our National existence. But it is an unavailing threat.

A REPUBLICAN Congress abolished the

right of suffrage in the District of Colum-

bia. Will the present Democratic Con-

gress refuse to restore it? If this refusal is made, one great charge against the Republican party which the Democrats never fail to use will be condoned and wiped out; one crash of Democratic campaign thunder will have been exploded for the List time, and the Democrats will prove themselves to be as recreant to the principles of self-government as they have charged their Republican opponents with having been. It is true that this District is experimental ground, in which all kinds of newfaugled ideas regarding governmental affairs may be exploited at the will and pleasure of Congress; but it is also true that when the Re-JUDGE E. MINORITY rule can only be maintained by force or is only submitted to temporarily in this enlightened country for policy's sake. The Maine imbroglio will demonstrate the truth of this assertion in more ways than one, for whatever the outcome of it may be it is an assured fact that in the near future the Garcelonites will be overwhelmed with the condemnation of the people and the Democracy in that State banished from power forever. The poison-DENIS KEARNEY has declared that he ous influence of Southern Bourbonism would as soon think of talking to a lot of which induced or impelled them to attempt "d-d Chinamen" as to make a speech to the the usurpation of the State government will disfrunchised people of the District of Co- be rebuked and effectually stamped out. lumbia. Has the Republican party any considerable class of voters in its ranks, who stand ready to rebel against the decision of its National PHYSICIAN and SPECIALIST, Convention? THE "SCRATCHERS" AT WORK. GEORGE WILLIAM CURTIS continues the war against the "third term" myth, and is getting down to something like argument on that point. He admits that neither General GRANT'S personal characternor his patriotic services are involved, but that the question in its true sense concerns only the Government and the people. Then follows the argument, which is mainly this: " The vote of New York is essential to Republican encoess. New York is a doubtful State, with strong Republican probabilities. The "Republican balance of power in New York is held by a body of voters which includes "the 'Independent' opponents of a third' The bulldozing usurpations of the South- "term; therefore it would be nuwise to ern Bourbons inspired the Garcefonites to "make a nomination which it would be in their attempt in Maine to assert Dem- "the power of these Independent voters to

In short, the Democratic greed judgment than the blowing of the wind.

THE Buffalo Commercial-Advertiser receives the following from its Washington correspondent, under recent date :

The other day I was looking over the files of the New York World for 1801, and in one of its Washington dispatches, dated May 16, 1861, I found the following paragraph:

"A. D. Banks, a notorious Secessionist and special agent of Jerr Dayrs in Washington during the rest to the rest for the control of the special agent of JEFF Davis in Washington during the past winner, was found secreted in one of the back streets of the city by the police last night and notified to leave. He immediately departed for Alexandria, leaving his personal effects here. He was no doubt a spy."

This same A. D. Banks is now Superintendent of Statlovery at the Senate, at a salary of \$2,250 per year, and has been since the Democrats got control of the organization last neersts got control of the organization last

Jarch.

In the same paper a few days later I saw a dispatch from Montgomery, Ala., announcing that ALBERT R. LAMAR had been elected clerk of the Confederate House of Representatives.

ALBERT R. LAMAR is a cousin of Senator LAMAR, and is now Tally Clerk of the United States House of Representatives.

During the past twenty-five years we have constructed the greater part of the first-class Elevator work throughout the United States. Our Washington work may be seen at the U.S. Capitol, the War and Navy Building, Treasury Building, Corcoran Building, Ebbitt House, Willard's Hotel, National Hotel, Evans' Building, Metropolitan Hotel, Hamilton House, Republican Building (Census Bureau), Government Printing Building.

We have erected in New York city, and elsewhere, a simple and safe PRIVATE HOUSE HYDRAULIC ELEVATOR, readily operated by a lady. We are building the Hoisting Machinery to be used in the construction of the WASHINGTON MONUMENT, capable of raising a load of nine tons to the height of 500 feet. After the completion of the Monument this machinery will operate a Passenger Elevator.
